Energy Efficient Glass Touch Smart Switch

Renovate your old house without altering existing wires or back boxes at affordable price

Build your new home in luxurious look

Save energy with scheduling, smart scenes setting etc.

Protect your valuable electronic gadgets from lightning/voltage fluctuation

All our smart switches are completely water proof & shock proof and ensuring high safety at all time.

Brighten up your home with a touch of COLOR

Color is the latest in Home automation technology, and it's the best smart touch panel available in India.

With its sleek design and advanced functionality, Color is a game-changer in the world of home automation with 16 million colors to customize your Touch switch.

You can adjust the saturation and brightness of any color to create your perfect shade. And with the ability to set cool icons for your switches, you can truly make it your own.
